Liz Tomey's mini-guide to getting **"Only The Good Stuff"** from the **Net InfomercialSecrets** free membership...

I really liked this site for two reasons. First because it's a valuable site. It's not another one of those sites giving away a ton of products. It focuses on using infomercials to help conversions on your site. This is something I have just begun playing with. I spent a lot of money on a course teaching me how to do this. By a lot of money I mean just under \$1000. It was worth it, but with this site, you don't have to spend any money at all, and you'll still learn a ton about using infomercials to sell people on your products and services, or even just getting them to give you their information.

The second reason is because the person behind this site is very special to me. His name is Jacob Stein, and he was one of my very first coaching clients. I've watched Jacob grow from doing nothing online to coming out with his very own stuff. Jacob is a real down to earth guy that really cares about providing quality.

Although this site is free, it's worth a lot of money, so let's get to the good part...

The first thing you need to do is go to <http://tomeymarketing.com/likes/infomercial-secrets.htm> Sign up for your free membership. Once you've gotten logged in, click on the link at the top that says **"Members Home"**.

Be Sure To Follow Each Step Below

The image shows a screenshot of the website header. The text "Members Home" is circled in red. The navigation menu includes links for "My Account", "Make Money", "Promo Tools", "Affiliate Stats", "Help Desk (0)", "EasyInfomercial.com", "Unadvertised Bonuses", and "Logout ()".

The first thing you need to do is listen to the call with Jacob and Russell.

- **How to stream** your high bandwidth videos quickly and FREE of charge.
- Plus, **much, much more!**

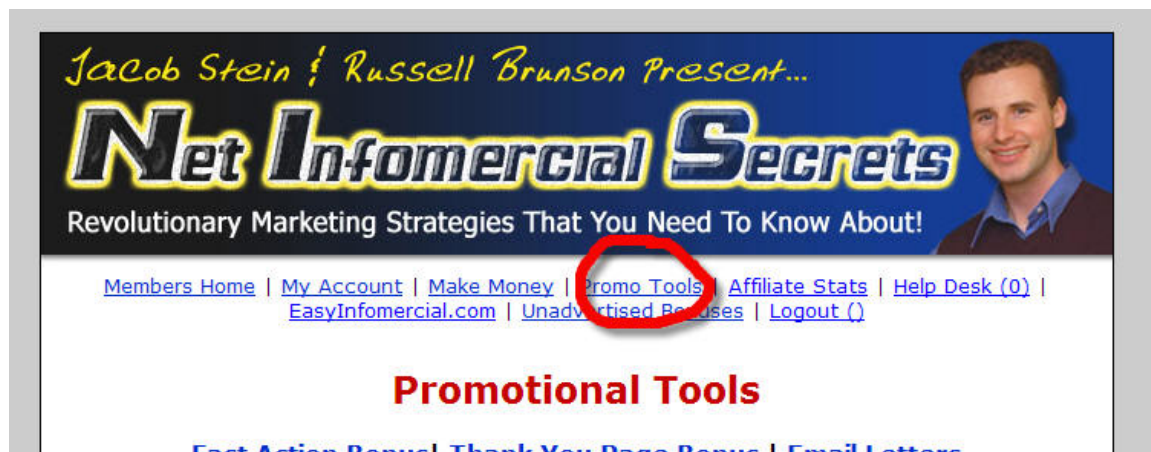

This is an important part of this. There is a lot of good information on this call, so grab a pen a paper and start taking some notes.

Now there is a OTO for this site which if for a video course that will teach you from the ground up all about using video on your sites. My favorite video out of these was the video about using video on squeeze pages. Talk about racking up subscribers! There are so many new things I'll be doing with my squeeze pages that are really going to push my subscriber rate through the roof.

So, if you're really interested in using video on your site, then I suggest you get the OTO. ☺

Now for those of you who have a website or a list of subscribers, this is a great giveaway. To give access to your customers, visitors, and/or subscribers, just click on the link at the top that says "**Promo Tools**".

There is a link that says “**Unadvertised Bonuses**”. There’s only one thing in there right now, and is totally unrelated so I wouldn’t even bother with it. It’s about JV’s and it’s not one of the best products out there, but if you are needing info about JV’s this could be interesting to you. I’ll get on Jacob about adding more bonuses to this area. ☺

This is a great site if you are looking to make more money from things you are selling or promoting. That tactic taught is amazing. Even if you would just like a little technology education this could be great for you too!

To your success!
