The Manual

This manual is a step-by-step guide to building your list and making money while you're doing so. This is the testimonial I sent Raam after reading it...

Raam,

I just got done reading List and Profits. As soon as I got done with it a grin appeared on my face because I knew you had just created something awesome! Not awesome in the sense that you can now rub a bottle and a genie will build your list for you, but you have created a simple way anyone (yes anyone) can build a list. If someone reads this, and can't build a list, they need to do the following:

1. Turn their computer off (optional)
2. Unplug it (optional)
3. Open up the nearest window (optional)
4. Throw their computer out of the window (required)

This is super easy to do, and the ones with the big lists are already doing!

Way to go Raam! This ROCKS!!

I meant every word of it. This IS super easy. If you can't do this then you need to find something else that has nothing to do with making money online. With this manual, there is no reason you can't build a list and make money while doing it.

READ IT!

LEARN FROM IT!

DO IT!

The Free Products

With your membership, you got 10 free products. After you read the guide, these can be used to build your list. If you use these products, then I do recommend the upgrade. If not, then don't worry about these products or the upgrade. They are no use to you.

You'd be very wise to use them though to build your list as the manual describes.

The Platinum Membership

If you use the products to build your list, you really need to upgrade to Platinum Membership. This allows you to brand these products with your affiliate links. These products could make you a lot of money!

You could even upgrade to the Platinum Membership and do nothing but gives these products away once you branded them and you'd see a nice little income stream just from the affiliate links in these products.

To upgrade, all you have to do is click on **Memberships...**

The Bonuses

Raam has some bonus products that have been offered from contributors. I will have one in there soon, called “**Squeezing Your List For More Profits**”. It’s only to be used once you have a list. You can download it for future use if you would like.

My List Builder Mentor System is also in there, but you get it for free in the **Business Development Vault** as my subscriber.

OTO Secrets is another great product to learn how to make money via One Time Offers.

As for the other bonuses, there are some good ones, but these are the ones I highly recommend. ☺

Now it’s up to you. You’ve been given free resources along with this free guide.
Now what are you going to do?

To your success!
